

# Lash Extensions

## BEFORE YOUR APPOINTMENT

- Please do not wear eye makeup – especially mascara, as it will take more time to remove your makeup and gives us less time to apply your lash extensions.
- Please do not wear contact lenses during application
- Please do not drink coffee, tea, energy drinks for at least two hours prior to your appointment as caffeine can cause your eyes to flutter involuntarily.
- We do not infill other people's work, however we can help safely remove a bad application. If you are wearing eyelash extensions done by others, please let us know prior to your appointment, We may need to remove them before applying our ones, removal fee is \$35 for 30 mins which can be booked separately. Otherwise, you can wait until your extensions come off before booking with us.

## AFTER YOUR APPOINTMENT

- **Avoid wetting lash extensions ideally 24 hours after the treatment.** This allows time for the glue to dry.
- **Avoid steam rooms and hot shower/ saunas** for at least 48 hours (or completely, if possible, due to cyanoacrylate's low thermal resistance).
- **Avoid oily products around the eyelashes.** Do not wear mascara, foundation and eyeliner on eyelids. If the lashes come into contact with these products, the bond of the adhesive can weaken and cause premature shedding of the extensions.
- **Wash and brush your eyelash extensions every day with lash shampoo!** It is important to wash the roots and skin between the eyelashes, not the tips of the extensions. If dust, oils or make up get stuck on the eyelid, they will affect natural lash health This can cause lash damage, premature lash lost or and infection. Please also wash after exercise. If you choose not to wash your lashes they wont last as long.
- **Do not use cotton wipes** to wipe the eyelash area, because they catch the extension and pull them out. Ideally use a soft brush to remove makeup around eye area,
- **Sleep on your back if you can**, and it is recommended to sleep on a silk pillow case or wear an eyelash mask to protect lashes.
- **Do not touch and rub the eyelashes** to avoid permanent hair loss. Be gentle. And using a lash wand is a great idea.
- **Lastly, do not perm, curl, tint or use mascara** on the eyelash extensions.

**IT IS IMPORTANT TO FOLLOW THE SPECIFIC AFTERCARE INSTRUCTIONS PROVIDED TO ENSURE THE BEST POSSIBLE RESULT. IF YOU HAVE ANY QUESTIONS OR CONCERNS ABOUT THE AFTERCARE PROCESS, BE SURE TO ASK YOUR LASH ARTIST FOR MORE GUIDANCE.**
